

Dapto Mall commences upper level refurbishment

\$3.5 million upgrade will bring “the outdoors within”

20 March 2019: In another exciting development for the rapidly expanding southern suburbs of the Illawarra, Dapto Mall has announced a \$3.5 million refurbishment of the upper level of the centre, to improve the shopping experience for both present and future customers.

Commencing this week, the upgrade focuses on the Food Court with a concept designed to bring “the outdoors within”. Responding to customer research, this new look and feel delivers on feedback revealing a desire for a reinvigorated food court area with comfortable, relaxed and intimate seating.

In a nod to the surrounding countryside and awe-inspiring Illawarra escarpment, the colours and décor reflect nature with greenery, earthy and natural tones. A new playground will also be installed.

Dapto Mall Centre Manager, Glenn Cochrane comments: “We have a strong, loyal customer base that has built up steadily over the past decade and we are excited to be able to create a space for them that is contemporary and modern, whilst also relaxed and easy going.

“With an expanding demographic in Dapto and surrounding areas, this refurbishment will appeal to both existing and new customers and is one way we can show that we are committed to meeting their everyday needs.”

Due for completion mid-2019, the reinvigorated upper level of Dapto Mall will deliver a comfortable and contemporary space for customers to relax with friends and family, enjoying something to eat or drink, or grabbing a coffee whilst their children spend time on the new playground.

Mr Cochrane adds: “This will be a fresh change for Dapto Mall, and we hope to present customers with a place they will enjoy as much as their own home. Our aim is to be the hub of the community and we know to do that we need to give our customers - present and future - what they want in a pleasant, modern environment.”

2.

The upgrade construction will occur in two stages – the first section in the south-east of the Food Court from 18 March to approximately 9 May, and the second section in the west of the Food Court from approximately 10 May to the end of June. There will be minimal disruption to customers as the refurbishment work will be undertaken outside of centre opening hours, and all retailers on the upper level will remain open as usual.

Further updates will be provided as this exciting project progresses. For more information visit <https://www.daptomall.com.au>.
